

Logo Guidelines

To preserve the logo's integrity, maintain a minimum clear space around the logo. This space eliminates interference from other elements. The minimum clear space is defined as the width of the S-shaped mark found in the SafeSend logo. The minimum space should be maintained as the logo is enlarged or reduced in size.

Do—Full color on light background.

Don't—Do not distort, rotate, or alter the proportions of the logo elements in any way. Drop shadows, stokes, unapproved colors, and backgrounds that interfere with the legibility of the logo are also prohibited. Please see examples.
